About this bibliography

This bibliography is compiled by Kikuo Maekawa in 2014. It is based upon the original document that Osamu Fujimura updated in May 2013.

PDF documents are provided for the items classified either as "journal papers" or "book chapters", but not for items in the categories "books" and "conference papers".

There are, unfortunately, two journal papers for which the PDF are missing. Articles without PDF are marked by "[Copy not found]" tags.

In the original bibliography, some materials were doubly registered in "refereed journal" and "book chapters". These overlaps were

corrected in this bibliography.

There were articles that could be found in the Internet, but not in the original document. Most of the articles are included in the "miscellaneous" section of this bibliography, but some of them are classified as "journal papers" and added to the section. Articles in the "miscellaneous" section include, among other things, preprints of oral presentations presented in domestic meetings in Japan. As for the reason why these articles were not included in the "conference" section in the original document, see the note in parenthesis below the section header (This note, as well as the one below the section header of "book chapters" was written by Osamu Fujimura in the original document, not the compiler's).

Most of the materials in this bibliography can be accessed either in the Internet (by means of *CiNii Articles* and / or *Google Scholar*) or at the research library of the National Institute for Japanese Language and Linguistics (NINJAL, in Tokyo), to which Osamu Fujimura donated substantial part of his books when he retired from the Ohio State University. The books were registered as "Fujimura Collection" (*Fujimura Bunko*) in the library. All PDF of the "RILP" articles were prepared by Hiroshi Imagawa for the RILP Bulletin website (<http://www.umin.ac.jp/memorial/rilp-tokyo/>). Articles which appeared in commercial periodicals like *Shizen*, *Kagaku*, and *Shisoo* were copied in the central library of Sophia University in Tokyo.

The compiler would like to express his gratitude to the following people who provided copies of articles: Donna Erickson, Kiyoshi Honda, Hideki Kawahara, Caroline Menezes, Pascal Perrier, and Jacqueline Vaissière. His gratitude also goes to the librarians of the NINJAL research library who maintained the Fujimura Collection, and John Ohala, who provided the picture of Osamu shown in the menu of this document. This portrait was taken at the legendary 1968 Speech Symposium in Kyoto. See the PDF [M_Nakata_OF_1969] for the details of the symposium.
